OF THE

LEGISLATIVE ASSEMBLY

Province of Saskatchewan

FIFTH SESSION

FOURTEENTH LEGISLATURE

Regina, Thursday, February 14, 1963

3 o'clock p.m.

This being the day appointed by Proclamation of His Honour the Lieutenant-Governor, dated the Eighth day of January, 1963, for the meeting of the Fifth Session of the Fourteenth Legislative Assembly of the Province of Saskatchewan, and the Assembly having met:

Mr. Speaker informed the Assembly that he had received a communication from the Private Secretary to His Honour the Lieutenant-Governor stating that His Honour would open the Session at three o'clock p.m. today, Thursday, the Fourteenth day of February, 1963.

3:05 o'clock p.m.

His Honour the Lieutenant-Governor entered the Chamber and, having taken his seat upon the Throne, was pleased to open the Session with the following Speech:—

MR. SPEAKER,

MEMBERS OF THE LEGISLATIVE ASSEMBLY:

IT IS MY PRIVILEGE to welcome you to the Fifth Session of the Fourteenth Legislature of Saskatchewan.

In 1962 the Canadian economy weathered a succession of strains and crises to produce its first year significant growth since 1956. This past year has been one of sound economic growth for our Province of Saskatchewan. Most gratifying was the impressive recovery of the agricultural sector from a near crop failure in 1961. Cattle production was above average and good prices prevailed. Further gains in the non-agricultural industries increased the tempo of economic growth. Public and private investment reached record levels while manufacturing and mineral production climbed to new peaks. Personal per capita income also reached a record peak and retail trade

benefited accordingly. We look with confidence to a future of sustained growth and broader employment opportunities.

The legislative and budgetary programmes which will be presented to you during this session are designed to contribute further to this economic growth and to make broader opportunities for better living available to all our citizens.

Good progress has been made in the construction and development of the South Saskatchewan River Development Project.

The further development of community pastures and fodder projects has made a valuable contribution to agricultural stability. Five new community pastures will be opened during the coming year. You will be asked to approve requests for additional funds to greatly expand existing agricultural development programmes. Legislation will be introduced to facilitate the development and administration of water resources on a watershed basis.

The Family Farm Improvement Programme has assisted more than six thousand farmers to modernize their homes. The Municipal Water Assistance Programme has enabled fifty-six towns and villages to install water and sewerage systems. Funds to continue these programmes will be requested.

The non-agricultural labour force in Saskatchewan has continued to increase and now exceeds two hundred thousand. Of this number seventy-four thousand are employed in establishments with more than fifteen employees.

The largest and most significant single development in the industrial history of our Province occurred last year with the opening of the International Minerals and Chemical Corporation potash mine and mill at Esterhazy. This industry is rapidly approaching full production and announcement has been made that another shaft will be sunk at this site and additional plant facilities constructed. Sixteen other companies are actively exploring and developing our potash resources.

The helium gas reserves of the Province are creating wide interest. One company has announced its intention to produce and market this rare product before the end of the year.

Saskatchewan's first steel mill continues to expand its volume and variety of products. Recently it obtained a large contract to supply pipe for a new gas transmission line that will be built through our Province. The protective plastic coating for this entire line will also be supplied by a plant established in Regina three years ago.

The generation of electric power has increased to serve the needs of our growing industrial economy. The commencement of hydro-electric generation at the new Squaw Rapids plant of the Saskatchewan Power Corporation this spring brings under active development another natural resource of our Province.

During the coming year the provincial power and gas utility will further extend services. The total number of its electrical customers will reach two hundred thousand; the total number of natural gas customers will approach one hundred thousand.

Interprovincial Co-operatives Limited has started construction of its chemical plant in Saskatoon. This industry will produce the basic materials for farm chemicals and provision is being made for the production of other products in the future.

A considerable upswing in exploratory interest in the sedimentary area of the Province has been noted since a full market for the productive capacity of Saskatchewan's oil and gas fields was achieved in 1962. In order to foster greater exploratory activity consultation with the petroleum producers of Saskatchewan has taken place and certain changes in regulations governing disposition of petroleum rights will be announced.

My Government will continue to supply information and services to companies engaged in the exploration for minerals in the Precambrian areas. Aeromagnetic surveys will be continued. A drill core and sample storage building for metallic mineral specimens will be constructed at La Ronge. Additional incentives will be offered to mineral exploration companies.

The Saskatchewan Research Council has continued its valuable work of obtaining information on the utilization of our resources and providing services to our industries. In order to increase these activities approval has been given for the expansion of the Research Laboratory on the Saskatoon Campus of the University of Saskatchewan.

Since the end of the war our Province has witnessed the steady emergence of a broader and more diversified economic base. Greater stability and diversity in agriculture, the discovery and extended use of both new and old resources, new and improved facilities for electric power, natural gas, water, transportation and research, the establishment and development of key industries, and the rapid population growth in major cities and towns have all strengthened the foundations of the provincial economy. These achievements have now laid a suitable basis for further expansion of manufacturing industry.

Legislation will be introduced to consolidate and extend several long-standing programmes of Government encouragement and assistance in the location of industry in Saskatchewan. You will be asked also to approve measures establishing a formal means for representatives of the private sector of the provincial economy to participate more fully in a programme designed to encourage industrial development.

Technical and vocational education has been developed and extended in order to provide training, encourage industry and increase employment. New technical and vocational school facilities in Moose Jaw, Saskatoon and Prince Albert valued at seven million dollars will be completed during the coming year. My Government expresses the hope that the Government of Canada, which has contributed a substantial amount of the cost of these facilities, will extend its policy of financial support for education. Of particular need is assistance for the rapidly growing university programme.

The Apprenticeship Training Programme has expanded and during the current training period over one thousand apprentices will receive instructions. Unemployed persons took advantage of the education upgrading programme in order to qualify for vocational training in approved schools.

It is gratifying to note that the number of unemployed workers in Saskatchewan has declined from the level of one year ago. Some of this improvement is undoubtedly due to the Municipal Winter Works Incentive Programme in which the Province takes an active part. During the current fiscal year five hundred and twenty municipalities have participated in more than one thousand winter works projects valued at fourteen and one-half million dollars. As a consequence more than three hundred thousand man days of work were provided.

During 1962 minimum wages were increased and the provisions of The Hours of Work Act were extended to seventeen additional communities.

More than three thousand miles of our extensive highway system now have a dust free surface. Year around reliability of our provincial highway system along with other improvements have permitted the operation of larger and more efficient trucks with resultant major economies in the movement of goods. Nearly nine thousand miles of high standard all weather municipal, oilfield and resort access roads have been constructed since the Grid Road Programme was introduced. The 1963 highway and municipal road assistance programme will continue to improve these important services.

More than two hundred thousand telephones are now in service in Saskatchewan. This represents a one hundred percent increase over the last ten years. During 1962, telephone exchanges in twenty-one communities were converted to automatic operation and five thousand additional rural subscribers were connected to these exchanges. One third of all rural telephones are now dial operated. This program of modernization will continue. An increased number of rural telephone companies took advantage of the assistance programme which has provided grants for pole replacement and higher standards of maintenance.

The Otosquen Road, connecting Hudson Bay and The Pas, Manitoba, will be completed in the coming year. Work on the Lake Hanson Road to Creighton and Flin Flon is proceeding. The provision of these and other northern roads has opened the way to untouched resources and provides access to new recreation and holiday areas.

The extent to which our citizens and visitors from outside Saskatchewan use established provincial parks requires the expansion of this programme. Accordingly new provincial parks will be established at three sites adjacent to the South Saskatchewan Reservoir.

Mental health facilities continue to improve. Construction of the Psychiatric Centre at Yorkton is proceeding satisfactorily. The facilities and programmes of the newly established Training School at Prince Albert are being further improved to meet the needs of the mentally retarded, and more patients will be admitted during the year.

Last year, Sabin poliomyelitis vaccine was made available to all persons in the Province. It is gratifying to note that only three cases of the disease, and no deaths from it, occurred in 1962. Another dose of this vaccine will be provided in 1963 for all children over one year of age.

Amendments will be introduced to The Health Services Act in order to enlarge the membership of the Health Services Advisory Commission with a view to increasing the scope of its activities.

Recipients of Old Age Assistance and their dependents, totalling more than eight thousand persons, now receive medical care at the expense of the Province. This new measure should also be of benefit to municipalities which formerly were responsible for much of the cost of medical care for this group.

The programme of housing for senior citizens continues to obtain the support of communities and organizations. More than five thousand aged persons will be accommodated in homes and in Provincial Geriatric Centres by mid-summer.

Negotiations have been completed for Federal-Provincial-Municipal subsidized housing projects at Saskatoon and Weyburn and construction of these is expected at an early date. Similar projects for other Saskatchewan cities are under discussion.

Amendments to The Child Welfare Act will be introduced to relieve municipalities of any part of the cost of maintaining neglected children in the future.

My Government has continued to consult with municipal people on a number of matters. As a result some changes in statutes under which local government exercise authority will be proposed. Legislation relating to local improvements will be introduced.

The proposed piece-meal abandonment of railway lines in Western Canada has caused widespread concern. Because of potential serious economic and social dislocations in a number of communities, My Government considered it necessary to oppose the procedure which was being followed.

Consequently it convened a conference in December last year to discuss action that might be taken by the governments of the three prairie provinces, by farm organizations, by organizations representing local governments and by representatives of commercial interests. Following this conference My Government participated in the representations made to the Government of Canada.

The decision to temporarily suspend further abandonment of railway lines was welcomed throughout Western Canada. However My Government will continue to concern itself with this problem until a policy is devised which will provide for a proper rationalization of transportation services.

Further attention has been given to special problems of our Metis and Treaty Indian citizens. Annual grants are being made to the Federation of Saskatchewan Indians to assist in defraying the costs of operating this association. New experiments in assisting northern residents to construct homes have proven successful. The eagerness with which a group of young Metis men have participated in special educational upgrading classes and technical and vocational instruction encourages the expansion of this programme. A policy providing for the extension of the rural electrification programme to Indian reservations has been adopted. The provision of power to remote northern communities such as Beauval has produced encouraging results. After attending a school offering training in electrical installations in this community, seventeen homes were wired by their owners.

Progress has been made in the integration of Treaty Indian students into the provincial school systems in many parts of the Province. In order to encourage this desirable trend amendments to The School Act to facilitate agreements between school boards and the federal authority will be proposed.

Further recognition will be given to the problems school authorities have in providing adequate educational opportunities. In this regard amendments to The Teachers' Superannuation Act will be proposed. Also provision for increased school grants will again be made.

Legislation will be introduced consolidating and amending The Automobile Accident Insurance Act and extending the benefits it provides. Legislation will also be introduced consolidating and amending The Municipal Hail Insurance Act and The Administrator of Estates of the Mentally Incompetent Act. You will be asked to consider amendments to legislation which will strengthen the position of magistrates courts and give greater security of tenure to magistrates.

The matter of adequate publication and subsequent review of regulations passed pursuant to the Statutes of the Province has been under active review. It is now proposed to introduce legislation dealing with the registration, the publication, and the tabling in the Legislature of regulations requiring observance by sections of the public.

My Government has reviewed with interest the three reports of the federal Royal Commission on Government Organization. The need for ensuring efficiency and effectiveness in the discharge of public business has long been recognized by the Government of Saskatchewan. It was in fact the first provincial government in Canada to establish a special agency to conduct continuing studies in organization and management of governmental affairs. It can be noted also that a number of the recommendations of this Commission have been government policy in Saskatchewan for many years.

In the interests of contributing further toward this purpose, legislation will be brought before this Assembly to establish a Saskatchewan Public Administration Foundation devoted to research studies and special training projects in fields relating to all levels of the public service.

The Public Accounts for the last fiscal year, together with estimates for the year beginning April 1, 1963 will be submitted.

I leave you now to the business of the Session with full confidence that you will favourably discharge your duties and responsibilities. May Divine Providence continue to bless our Province and guide the Legislature in all its deliberations.

His Honour the Lieutenant-Governor then retired from the Chamber.

By leave of the Assembly, on motion of the Hon. Mr. Brockelbank, seconded by Mr. Danielson:

Ordered, That the Report of the Select Special Committee appointed to prepare lists of the Members to compose the Select Standing Committees of this Assembly, be now concurred in.

On motion of the Hon. Mr. Lloyd, seconded by Mr. Thatcher:

Resolved, That this Assembly records with sorrow and regret, the passing in recent months of four former Members of this Assembly, and expresses its grateful appreciation of the contributions each made to his community, his constituency, and to this Province:

JOHN GRAY BANKS, who sat in this Assembly as the Member for the Constituency of Pelly from 1948 to 1952 died June 24, 1961. He was born and educated in Durham, Ontario, and moved to Saskatoon in 1910. Upon graduating in Law from the University of Saskatchewan, he moved to Kamsack where he became an active participant in community affairs, serving for fourteen years on the Kamsack High School Board, and as Mayor of Kamsack in 1947. He also served for many years as a member of the Session of the United Church at Kamsack.

WILLIAM JAMES CUMMINGS, who died May 25, 1962, was the Member for the Constituency of Gravelbourg from 1921 to 1925. He was born in Belfast, Northern Ireland, and came to Canada in 1904, settling first in the Peterborough district of Ontario. In 1908 he took up a homestead in Saskatchewan. Mr. Cummings served his community for many years both as councillor and reeve, and also as Secretary-Treasurer of the St. Boswells Rural Telephone Company.

PETER LAWRENCE HYDE, who from 1921 to 1927 represented the Maple Creek Constituency in this Assembly, died on March 6, 1962. Mr. Hyde was born at Silverton, Manitoba; he was educated and taught school in that province; and he served overseas with the Cameron Highlanders of Winnipeg during World War I. Settling in Hatton, in 1919, he later moved to Regina where he served as Alderman from 1930 to 1932. He was an executive member of various community athletic associations and member of the Board of Governors of the Regina General Hospital.

GEORGE WILLIAM SAHLMARK, a former Member for the Saltcoats Constituency died August 6, 1962. He was born in Morris, Minnesota, moved to Whitewood where his parents settled in 1887, and where he continued his education. After teaching school for several years, he attended the University of Manitoba, graduating in Arts in 1902 and in Medicine in 1908. Dr. Sahlmark practised in Saltcoats, Neudorf

and Regina. He sat in this Assembly from 1918 until 1929, and he served as member and later chairman of the Local Government Board between 1934 and 1944.

In recording its own deep sense of loss and bereavement, this Assembly expresses its most sincere sympathies with members of the bereaved families.

On motion of the Hon. Mr. Lloyd, seconded by Mr. Thatcher:

Ordered, That the Resolution just passed, together with transcripts of oral tributes to the memory of deceased former Members, be communicated to the bereaved families, on behalf of this Assembly, by Mr. Speaker.

Mr. Speaker laid before the Assembly, pursuant to Standing Order 105, the report of the Legislative Librarian dated February 11, 1963, which is as follows:—

REPORT OF THE LEGISLATIVE LIBRARIAN

Regina, February 11, 1963.

To the Honourable,

The Speaker of the Legislative Assembly of Saskatchewan

Sir:

I have the honour to submit to you the Annual Report of the Legislative Library.

The Library had three distinguished visitors during the year. They were Mr. Mohiuddin Ahmad, Pakistan High Commission, Ottawa, Mr. P. N. Gour, State Central Librarian, Behar, India, and Dr. W. Kaye Lamb, Dominion Archivist and National Librarian, Ottawa. In addition many thousands of tourists viewed the pictures, paintings and historical items in the Reading Room.

The Library again received gifts of books. Of numerous donations special mention is made of two—an Economic Atlas of Manitoba, donated through the good offices of Mr. Henry Janzen, and a collection of books and plates for binding, given by Mrs. A. Hayward of Regina. The Library is most appreciative of these and other gifts.

The reference and research facilities of the Library served a wide clientele. They were used by officials preparing submissions to various Royal Commissions, by visiting researchers from Commonwealth countries, by scholars travelling under the auspices of the United Nations. Students from the University, scholars doing post-graduate work, and students from city collegiates also made use of library resources. These demands were in addition to the regular work done for Members of the Legislative Assembly and officials in the public service.

During the year the Library continued the policy of collecting the writings of Saskatchewan authors and of building up a collection of local histories. The Library maintained a large collection of government documents. Through the good offices of Dr. L. Quincy Mumford, Librarian of Congress, the Legislative Library of Saskatchewan became a full depository library for all United

States government documents. Staff members contributed to professional and literary magazines. Inability to recruit professional staff—a condition not peculiar to Saskatchewan—brought some curtailment of the program of aid to departments maintaining small reference collections.

The completion of the work of re-cataloguing the whole of the book collection has brought a change in reference service. Regular users of the Library, using the card catalogue, may now carry out much of their own research. The significance of this change-over is revealed by statistics showing a steady decline in books signed out for users by staff members. At the same time the total of reference and research inquiries has risen as the Library serves a wider clientele. The following summary gives only the number of items borrowed and used outside of the Library and does not include those used in the institution. For convenience various categories have been put together.

Books and Materials Circulated in 1962

Books, including reference shelf	2,189
Law, Statutes and Debates	603
Newspapers	562
Pamphlets and maps	1,251
Periodicals	1,001
Dominion Bureau of Statistics	680
Total	6,286

References Inquiries, Bibliographic Research, etc.

Total in Legislative Library	3,380
Total in Archives Division of the Library	1,280
Requests services by microfilm	220
Total	4,880

During the year the Archives Division of the Library received numerous gifts of historic photographs and printed materials. The Division is particularly indebted to Mr. Stewart Young, Regina; Mrs. Lindley H. Bennett, Toronto; Mr. C. M. Learmonth, Regina; Mrs. Jean Reti, New York; Miss Edna Colbeck, Regina; Mr. Wilfred Gardiner, M.L.A.; Mr. John A. McDonald, Strathroy, Ontario, and Miss Elizabeth R. Wheeler, Victoria, for donations. The public-spiritedness of these and other donors is much appreciated.

I wish to publicly record my personal thanks to a conscientious and courteous staff.

Respectfully submitted,

JOHN H. ARCHER,
Legislative Librarian.

The debate continuing, in amendment thereto, it was moved by the Hon. Mr. Blakeney, seconded by the Hon. Mr. Lloyd:

That all the words after the word “requests” be deleted and the following substituted therefor:

“that the University of Saskatchewan and the Government of Saskatchewan study ways of making dental services more readily available to the citizens of Saskatchewan, including the desirability or otherwise of modifying the dental bursary program, of making appropriate arrangements with other universities for the education of Saskatchewan students of dentistry, and of establishing a Dental College in Saskatchewan with a course leading to the degree of Doctor of Dental Surgery.”

The debate continuing on the motion as amended and the question being put it was agreed to.

The Assembly resumed the adjourned debate on the proposed Resolution No. 5 moved by Mr. Thatcher:

That this House is of the opinion that the Government should give consideration to appointing a Commission to enquire into and report on organization and methods of operation of the departments and agencies of the Government of Saskatchewan and to recommend such changes as in the judgment of the Commission, will promote efficiency, economy and improved services in the dispatch of public business.

The debate continuing, in amendment thereto, it was moved by Mr. Johnson, seconded by Mrs. Cooper:

That all the words after the word “House” be deleted and the following substituted therefor:

“approves the action of the Government in having centralized in one agency in 1944 the purchasing of equipment and supplies required by the Government and for having established in 1946 a Budget Bureau to enquire into and report on organization and methods of operation of the departments and agencies of the Government of Saskatchewan on a continuing basis, and further urges that the Government proceed with any other measures which will further promote efficiency, economy and improved services in the dispatch of public business.”

A Point of Order having been raised by Mr. McCarthy that the amendment was an expanded negative, Mr. Speaker ruled the amendment in order citing Beauchesne, 4th Edition, Citation 202 (13) to the effect that an amendment which substitutes “a proposition with an opposite conclusion, is not an expanded negative and may be moved.” Mr. Speaker also cited a ruling of Mr. Speaker Parker found on page 97 of the *Journals* of 1937 in which he said:

Amendments to any motion may be quite in order and yet may place individuals or groups in a position where they may be deprived of the opportunity to either vote for that which they desire or against that of which they are not in favour. . . . This, however, is a matter of strategy on the floor of the House and not one to be decided by the Speaker.

Mr. Speaker's ruling having been appealed by Mr. Thatcher, Mr. Speaker put the question: "Shall the ruling of the Chair be sustained?"—which was agreed to on the following recorded division:

MAY IT PLEASE YOUR HONOUR:

This Legislative Assembly has voted the Supplies required to enable the Government to defray the expenses of the Public Service. In the name of the Assembly, I present to Your Honour the following Bill:

"An Act for granting to Her Majesty certain sums of Money for the Public Service of the Fiscal Years ending respectively the Thirty-first day of March, 1963, and the Thirty-first day of March, 1964."

The Royal Assent to this Bill was announced by the Clerk:

"In Her Majesty's name, His Honour the Lieutenant-Governor doth thank the Legislative Assembly, accepts their benevolence, and assents to this Bill."

His Honour the Lieutenant-Governor was then pleased to deliver the following Speech:

MR. SPEAKER AND MEMBERS OF THE LEGISLATIVE ASSEMBLY:

It is my duty to relieve you of further attendance at the Legislative Assembly. In doing so I wish to thank you and congratulate you upon the results of your deliberations.

The additional funds you have appropriated will permit the expansion of programmes designed to serve the farmer and to develop and diversify the agricultural resources of our province.

The provision of additional scholarships will be welcomed throughout the province. These will enable many more young people to obtain higher education.

The extent to which Saskatchewan has been able to develop its industrial potential in recent years has been the result of the combined efforts of many individuals, organizations, corporations, co-operatives and governments, both local and provincial.

The Industrial Development Act passed at this session will provide a more formal means for all sectors of the provincial economy to give further attention to our industrial growth.

The growing complexity of governments continues to make more difficult the responsibility of legislators to review the expenditures of public funds. It is earnestly hoped that your action to establish a Special Committee of the Legislature to consider matters relating to the review of Public Accounts will provide even better means for the protection of the public interest.

Public and private authorities have always been vested with the right to acquire land for public purposes by expropriation proceedings if necessary. While it is essential that this right be preserved it is incumbent upon legislators to ensure that expropriation proceedings adequately meet changing conditions and continue to pay full regard to the rights of the citizen. Your action in establishing a Special Committee of the Legislature to examine into matters relating to the expropriation of land by public and private authorities is commendable.

Legislation which you have passed will provide for the formal filing, publication and review of government regulations which are of a legislative nature. This innovation will provide an additional means of safeguarding the rights of citizens.

I am pleased to note that you voted funds for the Saskatchewan Diamond Jubilee and Canada Centenary Committee. Public recognition is again given to the members of this Committee and their willingness to serve Saskatchewan in this capacity. All citizens are urged to assist in the work of this Committee to ensure the success of celebrations on the sixtieth anniversary of the establishment of Saskatchewan and the one hundredth anniversary of Canadian Confederation.

Never has Saskatchewan been better represented in the world of sports beyond our borders than by the 1963 winners of the Dominion Curling Championship and the World Curling Championship. It was most appropriate that you again extended suitable honours to these sportsmen.

I thank you for the provision you have made to meet the further requirements of the public service and assure you that the sum of money voted will be used economically, prudently and in the public interest.

In taking leave of you, I desire to thank you for the manner in which you have devoted your energies to the activities of the Session and wish you the full blessing of Providence on your return to your respective homes.

The Hon. Mr. Walker, Provincial Secretary, then said:

MR. SPEAKER AND MEMBERS OF THE LEGISLATIVE ASSEMBLY:

It is the will and pleasure of His Honour the Lieutenant-Governor that this Legislative Assembly be prorogued until it pleases His Honour to summon the same for the dispatch of business, and the Legislative Assembly is accordingly prorogued.

Returns, Reports and Papers Tabled

The following papers were laid upon the Table:—

By the Hon. Mr. Walker, a member of the Executive Council:
